Brrrrrr...Cold and Stuck Inside?

We all know that it gets cold during the winter months. If you're stuck inside and feel like there's nothing to do, here are some fun and free ideas that can help pass the time:

- Invite a friend or family member over and have a board game tournament.
- Be creative and artistic – draw, color, paint a picture or do an arts and crafts project.
- Write and mail letters to family members who live far away. They'd love to hear from you!
- Learn some new tricks. Try juggling, spinning a basketball on your finger or doing handstands.
- Ask a parent or family member to take you to the library; there are plenty of fun things to do there for free!
- Go on an adventure by reading a book or watching your favorite movie.
- Bundle up and go outside! If you're lucky enough to live somewhere it snows, build a snow fort, have a snowball fight or go sledding.

Did You Know?

- When it is winter in the Southern Hemisphere, it is summer in the Northern Hemisphere.
- In winter, days are shortest, and the nights are longest.
- No two snowflakes are alike, but all snowflakes have six sides.
- Polar bears appear to have white, fluffy fur – but their skin is actually black.
- The coldest temperature ever recorded on Earth is -129°F in Antarctica. Whoa, talk about freezing!

Winter Jokes
